

The 24th International Conference on Biomedical Applications of Electrical Impedance Tomography (EIT 2024)

Invitation Letter for Business Partnership

Dear Colleagues,

We cordially extend an invitation to your esteemed company to participate in the 24th International Conference on Biomedical Applications of Electrical Impedance Tomography (EIT 2024). The conference is guided by Chinese Society of Biomedical Engineering and Chinese Medical Doctor Association, hosted by Sir Run Run Shaw Hospital Zhejiang University School of Medicine, Zhejiang University of Technology, Guangzhou Medical University and Zhejiang Council for Health Services Promotion. It will be held in Hangzhou, China, on 27th-30th June 2024.

As a pivotal global event in the biomedical field focusing on research and applications of impedance imaging technology, EIT 2024 will bring together more than 200 top scholars around the world from renowned universities, clinical doctors from various healthcare institutions, and industry leaders. It provides an elite platform that fosters deep integration between academia, research, and industry, offering exhibitors a valuable opportunity to showcase their cutting-edge technologies and products. The conference will feature keynote speeches, technical seminars, product exhibitions, as well as dedicated business negotiation areas to facilitate connections with potential partners and propel substantive cooperation projects.

We sincerely invite your company to exhibit or sponsor this prestigious event with your latest medical device products and solutions. Through profound exchanges and collaborations with global industry elites, you can share market opportunities, enhance brand influence, and achieve new breakthroughs in technological development, clinical applications, and market promotion.
